

If you would prefer to make your booking via email or a phone call, please email bookings@orthoregen.com.au or call 07 3505 3999.

Below is information regarding INITIAL CONSULTATIONS at OrthoRegen.

Your initial assessment consultation can last up to an hour. The cost of the initial assessment consultation is \$350. You will receive a Medicare rebate of \$125.10.

We offer phone/video initial consultations for those who do not live in the local area. These video/phone consultation assessments unfortunately do not carry Medicare or Private Health Fund rebates. Please email bookings@orthoregen.com.au or call 07 3505 3999 to let us know if you would like your initial consultation to be a video/phone consultation.

Your initial assessment will be conducted by one of OrthoRegen's clinical team. Our clinical team have been personally trained and handpicked by Dr Schiavo. They will carry out a thorough history and examination to identify the root cause of your presenting issue. This process is to ensure we can see the large volume of patients that present to our clinic for our non-surgical treatments and continue to provide the highest quality healthcare to our patients. Please be aware, that while your assessment is conducted with the OrthoRegen clinical team, all patient cases are discussed with Dr Schiavo. Furthermore, Dr Schiavo and Dr Baarbe perform all of our interventional regenerative medicine procedures.

For "in person" appointments, the clinical team may recommend a specialised diagnostic ultrasound scan be performed at our clinic, to help diagnose any concerns. This ultrasound scan may carry a small additional fee.

It would be extremely helpful if you could obtain any radiological investigation reports pertaining to your condition for the initial consultation assessment. These can be brought to your appointment or alternatively emailed to admin@orthoregen.com.au.

We hope this information is helpful. Please contact us via email at bookings@orthoregen.com.au or call 07 3505 3999 with any questions you may have.

Thank you once again for choosing OrthoRegen for your musculoskeletal health and wellness.

We look forward to helping you move better, feel better and live better.

Kind Regards
The OrthoRegen Team
